Customs, beliefs and values are grounded in religion and culture. Hindu religious belief begins with the assumption that all living things have a soul, which passes through successive cycles of birth and rebirth. Hinduism includes ideas of karma and rebirth, collective versus individual identity, an emphasis on purity and a preference for sons.

Easy and brief ways to incorporate yoga techniques in the classroom. Stress is everywhere in kids' lives and impacts their well-being at home and school. Exercise is known to reduce stress, yet students have never been more sedentary. And teachers have little time to add yet something else into the school day. Enter Louise Goldberg and Classroom Yoga Breaks. In this essential book, readers will find a comprehensive guide to incorporating short yoga breaks into their classrooms. Teachers will learn how to promote movement, learning readiness, attention skills, cooperative community, and self-regulation—all in just a few minutes a day. Goldberg's evidence-based principles of "Creative Relaxation"—creating a peaceful environment where students feel safe, engaged, successful, and independent, promoting empathy and mutual respect—lead the way toward successful use of yoga in the classroom. The book includes a step-by-step curriculum for integrating yoga breaks into the classroom and over 200 illustrated

exercises—enough to incorporate one every day of the school year. Twelve units are arranged by theme, with lessons consisting of one- to five-minute exercises, that can be done from the seat or standing. Each unit includes topics for discussion or writing, movement, breathing exercises, focusing activities, relaxation techniques, mindful practices, and self-calming skills. Yoga is a complement to social and emotional learning, mindfulness training, and physical education. It can help address bullying behaviors, students with autism and special needs, and promote overall resilience and executive function. With this book in hand, readers can integrate these fun, relaxing, and healthy breaks into the daily lives of their students and themselves.

Scholars of religion in general and specific religions were recruited as contributors, presented first drafts in London in 1996, and revised their essays according to its reception. They explore the experience of religious communities that have migrated to the three English-speaking countries, considering the cultural nuances of each, how traditions are reformed or reinvented, and how they are passed on through the family and institutions. They mainly focus on Hindus, Muslims, and Sikhs but also include Christian, Zoroastrian, and other immigrants and new religious movements in the west led by south Asians.

This collection of 16 reflective accounts and data-driven studies explores the interrelationship of religious identity and English Language Teaching (ELT). The chapters broaden a topic which has traditionally focused on Christianity by including Buddhist, Hindu, Muslim and non-religious perspectives. They address the ways in which faith and ELT intersect in the realms of teacher identity, pedagogy and the context and content of ELT, and explore a diverse range of geographical contexts, making use of a number of different research methodologies. The book will be of particular interest to researchers in TESOL and EFL, as well as teachers and teacher trainers.

A selection of Gandhiji's articles drawn mainly from his contributions to young India, the Harijan and the Navjivan on Hinduism. Written on different occasions, these articles present a picture of Hindu dharma in all its richness, comprehensiveness and sensitivity to the existential dilemmas of human existence.

This book provides a comprehensive account of the Banaras Hindu University (BHU), India's first residential university and the result of Pandit Madan Mohan Malaviya's efforts to establish a Hindu university in the country. This book not only discusses the origins and development of the BHU, but also the challenges and issues that the school faced. It studies Malaviya's efforts to introduce religious education in BHU—and even make it mandatory—and his response to Mahatma Gandhi's efforts to boycott the university. It also describes the lives of the students in the campus and its academic, intellectual, and cultural atmosphere. This book also considers the role and influence of the British in the development of Hindu education during the late colonial period and the importance of the university's location.
