Quality Assurance in Distance Education and E-Learning: Challenges and Solutions from Asia documents the existing regulatory framework covering quality assurance (QA) systems in distance education (DE) in a number of Asian countries. It draws on the knowledge and experience of 16 selected DE/e-learning institutions of Asia and reveals the respective development of QA systems and procedures within these providers/programmes. The endeavour towards developing QA systems through various stages of testing and development is in response to the growing public concern for the quality of DE as well as staff aspirations for quality. This book, through the selection of cases from the aforementioned institutions, covers a wide range of QA systems and perspectives of quality in DE. These cases present good practices in QA for DE/e-learning, analyse challenges in assuring the quality of DE products and services, offer possible solutions to meet those challenges, and present lessons for other DE providers.

This volume is a collection of scholarly papers that explore the complex issues concerning English Studies in the present Indian context. The discussions in this volume range from historical perspectives to classroom-specific pedagogies, from sociological and political hierarchies to the dynamics of intellectual development in the English language environment. Interrogating both policy and practice pertaining to English Studies in the context of Indian society, culture, history, literature and governance, the chapters seek to formulate contemporary perspectives to these debates and envision alternative possibilities. Since the introduction of English to India more than 2 centuries ago, the language has transmuted the very fabric of Indian society, culture, history, literature and governance. The idea of India cannot be conceived in its entirety without taking into consideration the epistemological role that English has played in its formation. The present globalized world order has added dimensions to English Studies which are radically different from those of India’s colonial and postcolonial past. It is therefore imperative that the multitudinous shades and shadows of the discipline be re-examined with inputs drawn from the present context. This volume is for scholars and researchers of English literature and language studies, linguistics, and culture studies, and others interested in exploring new paradigms of engagement with the disciplinary formulation of English Studies in India.
